INDEX TO VOLUME 26

A

Abbott, Gordon A., and Russek, H. I., 542
Abell, R. G., and Page, I. H., 429,* 430*
Abramson, D. I., Flachs, K., Freiberg, J., and Mirsky, I. A., 431*
—, Landt, H., and Benjamin, J. E., 715*
Acheson, G. H., and Rosenblueth, A., 422*
Action currents, cardiac, distribution of, electrical conductivity of tissues near heart and its bearing on, 42
Age and other factors, electrocardiographic changes in exercise and their relation to, 710*
  prognostic significance of, at onset of initial attacks of rheumatic fever, 681
Aged, blood pressure in, 11
Air, expired, concentration of carbon dioxide in, in heart disease, 840*
  inspired, acute alteration in composition of, responses in size, output and efficiency of human heart to, 839*
Alberton, Edmond C., Konds, B., and Sampson, J. J., 164
Allen, Edgar V., Haines, S. F., and Mountain, G. E., 528
Allergy, manifestations of, together with unusual electrocardiographic abnormalities and short P-R interval with prolonged QRS complex, 55
Anemia, profound, status anginosus due to, 276*
Aneurysm, cardiac, rare, in child, 415
  dissecting, of abdominal aorta, 124
    of aorta, 847*
  intracranial, ruptured, as cause of subarachnoid hemorrhage, 645
  of heart, 711*
  of pulmonary artery, 692
  of renal artery, 285*
  of thoracic aorta distal to coarctation, 832
Aneurysms, mycotic and dissecting, of aorta complicating bacterial endocarditis, 569*
Angiitis, visceral, urinary sediment in, quantitative studies, 141*
Angina pectoris and diaphragmatic hernia, 283*
  and syndrome of peptic ulcer, 561*
  syphilitic, 712*
Angioma, arteriovenous, of mandible and retina, with pronounced hematemesis and epistaxis, 569*
Angiotonin, hypotension and loss of pressor response to, as result of trauma to central nervous system and severe hemorrhage, 846*
Anomaly, coarctation of aorta in childhood, 278*
    pregnancy and labor in a case of, 564*
  congenital, cardiac, atrial septal defect, 520
    diagnosis of, in children, 844*
  frequent obstructive, of mouth of left common iliac vein, 737
  heart block with atrial and ventricular septal defect, 425*
    with dextrocardia, 278*
  of heart, staphylococcus aureus subacute bacterial endocarditis superimposed on, with recovery, 405
  patent ductus arteriosus, infected, blood cultures from pulmonary artery and aorta in patient with, 426*
  tetralogy of Fallot, 302
Anoxemia, cardiac, 288 (B. rev.)
Anoxia, acute, peripheral vascular response to, 715*
    progressive, venous pressure and circulation time during, 570*
Aorta, abdominal, dissecting aneurysm of, 124, 847*
  embolectomy for riding embolus of, 848*
  aging, relations between structure of, and properties of isolated aortic elastic tissue, 569*
  and pulmonary artery, blood cultures from, in patient with infected patent ductus arteriosus, 426*
  aneurysms of, mycotic and dissecting, complicating bacterial endocarditis, 569*
  bifurcation of, embolism and secondary thrombosis of, 180

*An asterisk (*) after a page number indicates the reference is an abstract and not an original article.

Aorta—Cont'd
coaretation of, in childhood, 278*
congenital, pregnancy and labor in, 564*
isolated elastic tissue of, relations between structures of aging aorta and properties of, 569*
orifice of, dilatation of, aortic regurgitation caused by, and associated with characteristic valvular lesion, 24
rabbit's, occurrence of atheroma in, with renal hypertension, 570*
reactions of, in hemorrhagic hypotension and shock, 430*
rupture of, incomplete, 570*
sclerosis of, a heretofore unrecognized mechanical principle effective in, 133*
thoracic, coaretation of, with aneurysm distal to obstruction, 832
transposition of, and the pulmonary artery, embryologic study of cause, 138*
Argentina, frequency of rheumatic fever in, 712*
Arsenic poisoning, acute, extreme hypotension following, with adequate blood supply to tissues, 713*
Arteries, disseminated intimal proliferation of, with thrombosis, 751
Arterioles, renal, medial hypertrophy of, in pregnancy, 847*
Arteriosclerosis, coronary, serum cholesterol level in, 431*
obliterans (*See* Artery, disease, chronic, occlusive)
of renal artery and hypertension, relationship between, 714*
Arteritis in rats with experimental renal hypertension, 713*
necrotizing, experimental, in dogs, bilateral nephrectomy as effective as heavy metal injury in its production, 848*
Artery, coronary, arteriosclerosis of, serum cholesterol level in, 431*
hemorrhagic lesions of, 847*
occlusion of, course of blood pressure before, during, and after, 92
thrombosis of, and myocardial infarction in youth, 269
electrocardiograms simulating those of, after cessation of paroxysmal tachycardia, 555
fatal, in man aged twenty-two, 711*
Artery—Cont'd
disease, chronic, occlusive, associated with retinitis pigmentosa, 836
lesions in occluding peripheral sclerosis, with a note on Mönckeberg's sclerosis, 141*
peripheral, occluding sclerosis of, study of lesions in, 141*
posterior intercostal, anomalous origin of, from 915 thoracic aortas, role in fracture of ribs, 511
pulmonary and aorta, blood cultures from, in patient with infected patent ductus arteriosus, 426*
aneurysm of, 692
congenital atresia of, with cerebral thrombosis and hemiplegia, 138*
embolism of, experimental, effects on respiration, 716*
transposition of, and aorta, embryologic study of cause, 138*
renal, aneurysm of, 285*
arteriosclerosis of, and hypertension, relationship between, 714*
main, atherosclerosis of, in essential hypertension, 846*
Arthritis, rheumatoid, and rheumatic heart disease in autopsied cases, 139*
Ashman, Richard, 495
—, and Gardberg, M., 842*
—, —, and Byer, E., 473
Atheromatosis, experimental, in omnivorous animal, the chick, produced by cholesterol, 133*
Atlas, Lawrence N., 120
Atropine, effect of, on coronary blood flow of trained dogs with denervated and partially denervated hearts, 561*
Auricle, left, polypoid thrombus of, 549
Auricular complex in electrocardiogram in pulmonary tuberculosis, 428*
A-V pause, locus and nature of, in spread of cardiac activation, 137*
Aviation medicine, some problems in, 276*
physiology in, 288 (B. rev.)
Axon reflex, vascular, in human skin as exhibited in case of urticaria, with remarks upon nocifensor nerve hypothesis, 422*

B

Bacterium tularense, constrictive pericarditis due to, 427*

Bailey, C. V., and Boyer, P. K., 840*
Bailey, O. T., Weiss, S., Stead, E. A., Jr., and Warren, J. V., 845*
Baldes, E. J., Essex, H. E., Herrick, J. F., and Mann, F. C., 561,* 709*
Ballistocardiograph, tilting, 351
Barker, Paul S., Wilson, F. N., and Johnston, F. D., 435
Barman, J. M., Moreira, M. F., and Consolazio, F., 142*
Barnes, A. R., and Currens, J., 284*
Barrow, W. H., and Ouer, R. A., 710*
Bartol, G. M., Edwards, J. E., and Lamb, M. E., 569*
Basal metabolism, relation of kinemic abnormalities to, supernormal circulation in resting subjects, 143*
Battle, F. F., and Moia, B., 843*
Bayles, T. B., 139*
Bayley, Robert H., 769
Bedford, D. E., and Jones, E., 712*
Bellis, C. J., 848*
—, Doss, A. K., and Craft, C. B., 849*
Benjamin, J. E., Abramson, D. I., and Landt, H., 715*
Berconsky, I., Trimani, A., and Cossio, P., 423*
Bergman, A., and Neuman, J., 570*
Bernstein, Arthur, and Parsonnet, A. E., 39
Bernstein, S. S., and Ginzbury, L., 276*
Bick, M. W., and Epstein, B. S., 200
Blood, accumulation of, in extremities, effect of, on venous pressure of normal subjects, 282*
and concentrated plasma, treatment of leg ulcers with, 571*
and skeletal muscle, distribution of water and electrolytes between, in experimental hypertension, 429*
flow of, caudal, plethysmographic studies of action of various drugs on, 718*
coronary, of trained dogs with denervated and partially denervated hearts, effect of atropine on, 561*
heart rate and blood pressure, of trained dogs with denervated and partially denervated hearts, effects of exercise on, 709*
in extremities affected by anterior poliomyelitis, 431*
peripheral, effect of cigarettes on, 78
under basal conditions in normal male subjects in third decade, 67
Blood, flow of—Cont'd
renal, effective, glomerular filtration rate and tubular excretory mass in arterial hypertension, 568*
pressure, arterial and central venous, changes in, following complete transection of spinal cord, 840*
coronary blood flow and heart rate, of trained dogs with denervated and partially denervated hearts, effect of exercise on, 709*
course of, before, during, and after coronary occlusion, 92
determination of, in rats by direct observation of blood vessels, 713*
effect of spontaneous variations in, upon spontaneous variations in volume of finger tip, 422*
extreme hypotension following acute arsenic poisoning with adequate blood supply to tissues, 713
in essential hypertension, effect of several reputedly hypotensive drugs, 610
in the aged, 11
normal, in lower extremities, 623
of normal dogs and of dogs with experimental renal hypertension, effect of high-protein diet and urea administration on, 232
peripheral, venous, in man, effect of positive and negative intrathoracic pressure on, 714*
rabbit's, role of pressoreceptors in regulation of, 275*
venous, absence of conspicuous increments after severe damage to right ventricle of dog, with discussion of relation between clinical congestive failure and heart disease, 291*
and circulation time during acute progressive anoxia in man, 570*
during venesection and blood transfusion, 431*
high, tongue sign for, 685
of normal persons, effect of accumulation of blood in extremities on, 282*
supply, adequate, to tissues, with extreme hypotension following acute arsenic poisoning, 713*
vessels, cerebral, thrombosis of, and hemiplegia, congenital pulmonary atresia with, 138

Blood vessels—Cont'd
cytologic effect of saponin on walls of, 276*
determination of blood pressure in rats by direct observation of, 713*
of ears of rabbits, effects of renal hypertension on, 429*
of mesentery, state of, in shock produced by constricting limbs, and behavior following hemorrhage, 430*
of respiratory center, spasm of, with secondary lung edema, 283*
Boas, E. P., and Levy, H., 561*
Body position, effect of, on circulation rate after operation, 849*
weight, basal, level of, in treatment of congestive heart failure, 338
Bondley, J., III, Gladston, M., and Dandy, W. E., 432*
